5.2.3 ECT Orders made and refused, by gender.....	15
6. Feedback	16

Notes about the MHT Quarterly Activity Report:

To enable the community to be informed of the practical operation of the *Mental Health Act 2014* (the Act) the Mental Health Tribunal (the Tribunal) is committed to providing regular and detailed information about the decisions it makes concerning compulsory mental health treatment. Quarterly Activity Reports are produced for the first three quarters of each financial year and the Annual Report captures the full financial year.

1. Tribunal hearings

Between 1 January and 31 March 2022, the Tribunal conducted 2,236¹ hearings. There were a further 1,641 matters which were listed for a hearing but did not proceed, usually as a result of the patient’s Order being revoked (cancelled) or the hearing being rescheduled to another date to facilitate the participation of parties. Of the 2,236 hearings conducted in this period, 85% (1,893) were determined and 15% (343) were adjourned.

1.1 Hearings conducted

The number of hearings conducted, as well as the split between hearings with a determination and adjournment, has remained relatively consistent over recent quarters.

¹ Total of all Tribunal hearings including Treatment Order, ECT and other hearings.

1.2 Adjourned hearings

Hearings can be adjourned to a later date with or without the patient’s Order being extended. The proportion of hearings adjourned with an Order extension was 82% between January and March 2022.

1.3 Reasons for adjournments with extension of Order

A patient’s hearing can be adjourned, and their Temporary Treatment Order or Treatment Order extended by a maximum of 10 business days if the Tribunal is satisfied that exceptional circumstances exist.

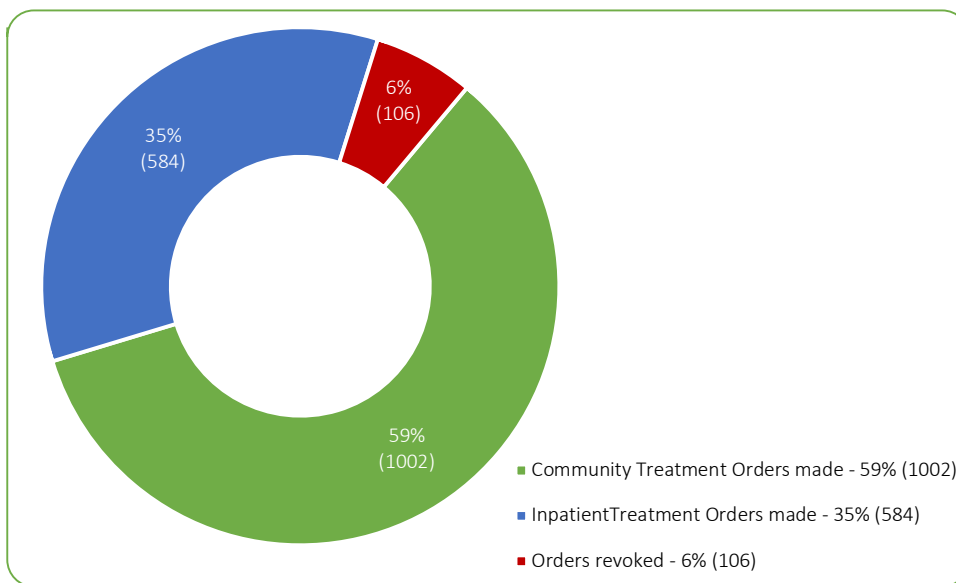

2. Treatment Order Hearings

2.1 Treatment Orders made and revoked by the Tribunal

In any hearing concerning a Temporary Treatment Order or Treatment Order, the Tribunal must decide whether to revoke an Order or make a further Treatment Order. If it makes a Treatment Order the Tribunal must decide whether it will commence as an Inpatient or Community Treatment Order, based on the circumstances at the time of the hearing.

Between January and March 2022, the Tribunal conducted 1,692 Treatment Order hearings. In these hearings the Tribunal made 1,002 Community Treatment Orders, 584 Inpatient Treatment Orders and revoked 106 Orders.

2.2 Comparison of Treatment Orders made and revoked

2.3 Duration of Treatment Orders made

When the Tribunal makes an Order, the Tribunal must also set the duration of the Order. Inpatient Treatment Orders for adults can have a maximum duration of six months (26 weeks) and Community Treatment Orders for adults can have a duration of up to 12 months (52 weeks). Inpatient and Community Treatment Orders for children can have a maximum duration of 3 months.

2.3.1 Duration of Community Treatment Orders made

2.3.2 Comparison of Community Treatment Orders made

2.3.3 Duration of Inpatient Treatment Orders

2.3.4 Comparison of Inpatient Treatment Orders made

3. ECT Orders

3.1 Elapsed time from receipt of ECT application to hearing

The Tribunal must list and complete the hearing of an application for an ECT Order as soon as practicable and within five business days after receiving the application. The Tribunal Registry seeks to balance considerations of clinical urgency alongside procedural fairness and allowing people reasonable time to prepare for a hearing.

3.2 Comparison of elapsed time from receipt of ECT application to hearing

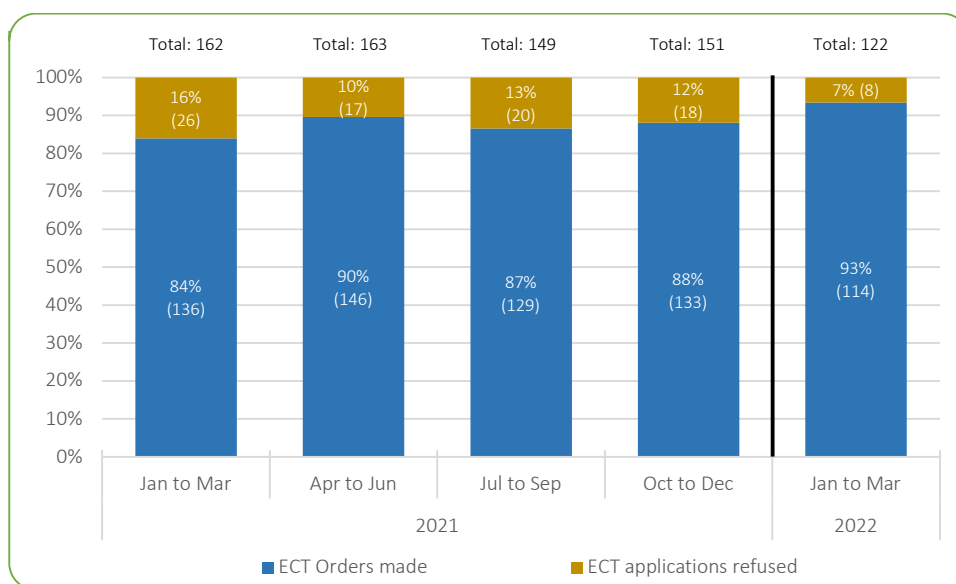

3.3 Outcomes of ECT hearings

The Tribunal heard 122 applications for ECT Orders between January and March 2022. Of those, 114 (93%) ECT Orders were made and 8 (7%) ECT applications were refused.

3.4 Comparison of Tribunal ECT determinations

3.5 Duration of ECT Orders

When making an ECT Order, the Tribunal must set the duration of the Order up to a maximum of six months (26 weeks).

3.6 Comparison of ECT Order duration

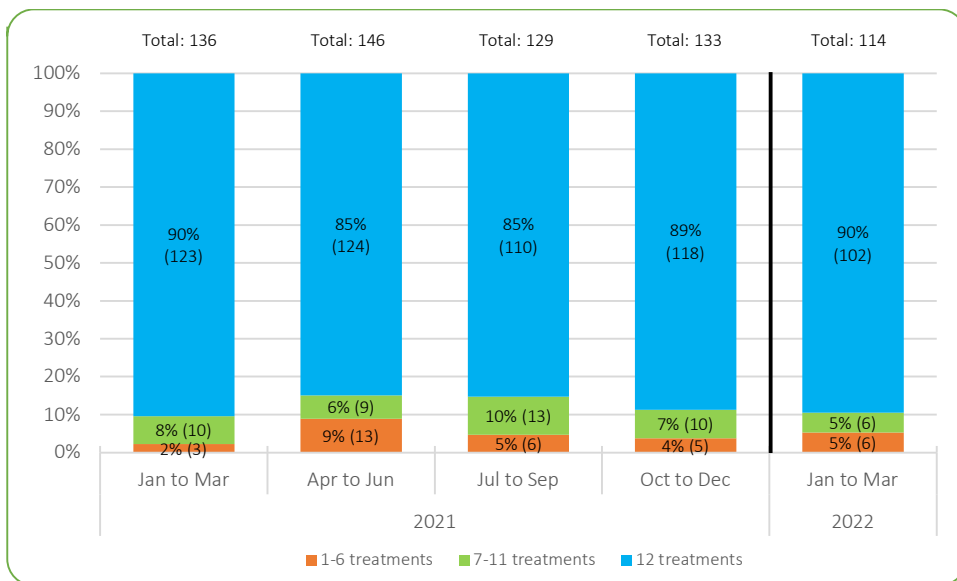

3.7 Number of treatments authorised by ECT Orders

When making an ECT Order, the Tribunal must authorise the number of treatments that can be administered under the Order up to a maximum of 12.

3.8 Comparison of treatments authorised by ECT Orders

4. Participation at hearings

The Tribunal is committed to promoting and encouraging the participation of patients and the people who support them in hearings. The Tribunal seeks to maximise the notice period as much as possible to allow people to participate.

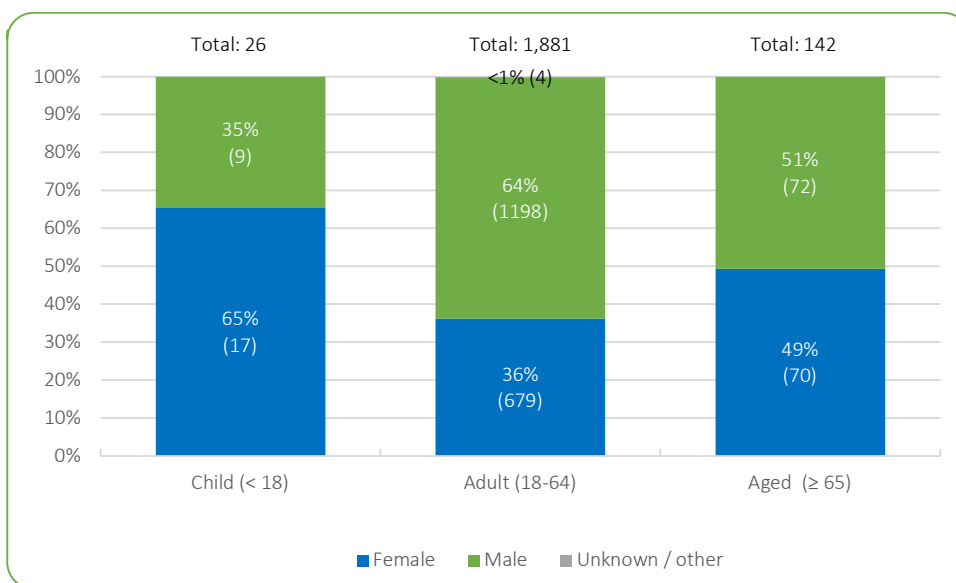

5. Patient demographics

The following information provides patient demographic information for hearings conducted between January and March 2022. The Tribunal receives patient demographic information from the CMI/ODS system which has limited fields for the recording of gender. When the Tribunal becomes aware a patient’s gender identity is different to what is recorded, we make every effort to ensure that our documentation and communications with them reflect their identity, but we are unable to adjust the demographic records.

5.1 Treatment Order hearings

5.1.1 Treatment Order hearings conducted, by age and gender

5.1.2 Treatment Orders made and revoked, by age

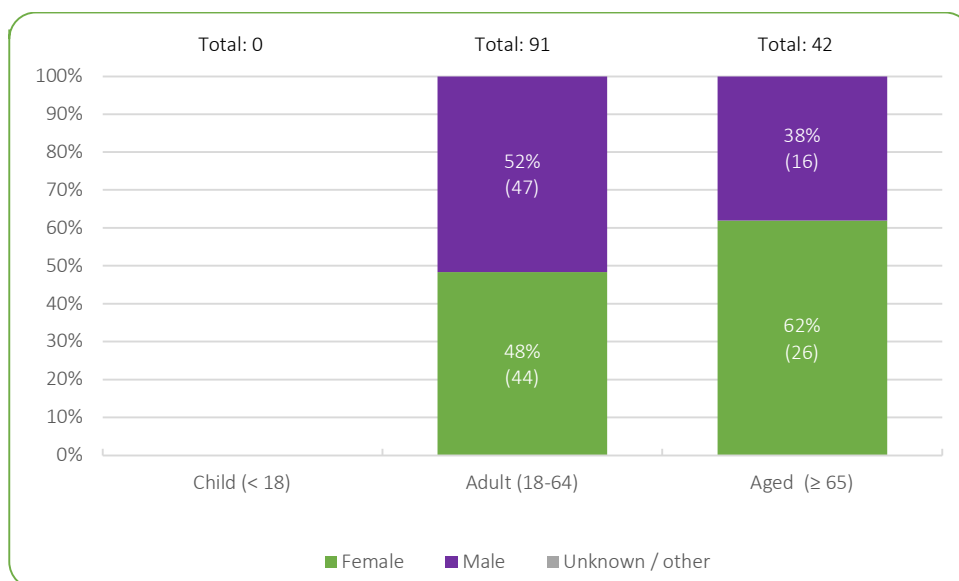

5.1.3 Treatment Orders made and revoked, by gender

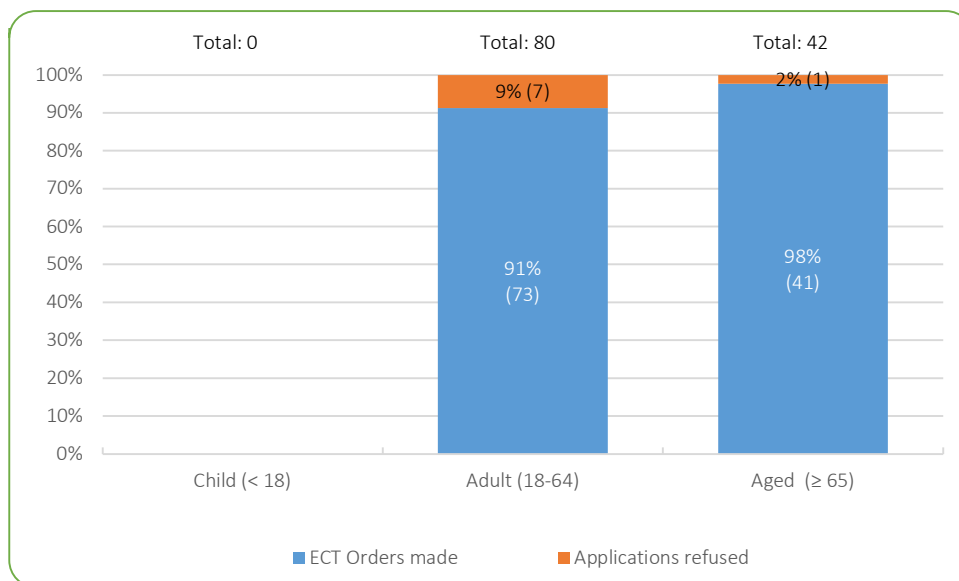

5.2 ECT hearings

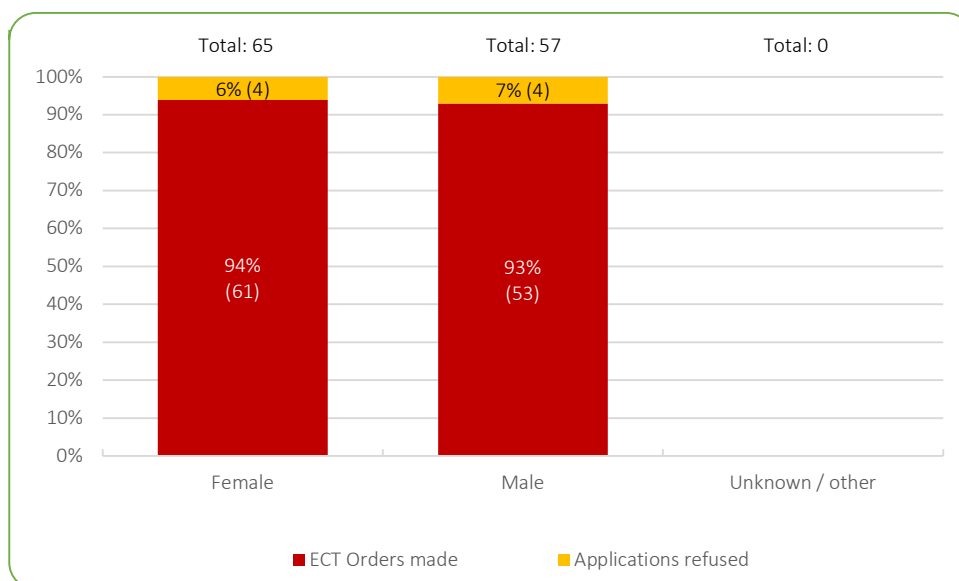

5.2.1 ECT hearings conducted, by age and gender

5.2.2 ECT Orders made and refused, by age

5.2.3 ECT Orders made and refused, by gender

6. Feedback

During the quarter, the Tribunal received feedback regarding 12 matters, five of which were complaints. The complaints related to –

- 3 complaints about the conduct of a hearing
- 1 complaint about member conduct in a hearing
- 1 complaint about a staff member's conduct

All complaints have been responded to in accordance with the Tribunal's feedback and complaints process which is available on the Tribunal's website.
